

Windows Desktop Quick Start Guide

You've installed Skoot—now it's time to share files!

Open Skoot and log in: you'll find Skoot  on your desktop display, or in your applications or program folder. Just click the Skoot icon and log in! For Skoot, your email address is your username.

Need help?

For Skoot Help, press F1 in any Skoot window, or click Help in the Skoot menu.

1 Click  in the Workspaces header.

Workspace Name:

Email Address:

Description:

2 Type the name of your new workspace.

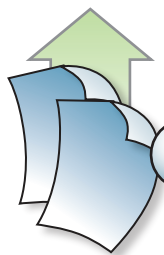

3 Type the email address of someone you want to share files with.

4 Type a short workspace description.

Create Workspace

5 Click Create Workspace.

6 Drag and drop files you want to share into the Files area.

Your file's Skooted!
